

**White Nose Syndrome (WNS)
Permit Questionnaire and Compliance Statement**

Due to concerns regarding the possible introduction of White Nose Syndrome (WNS) into Misty Cave and the surrounding region, the Misty Cave Preserve Management Committee (MCPMC) has instituted requirements for access to Misty Cave

The MCPMC takes the WNS issue very seriously. In choosing to keep the preserves open, we must be proactive in our management. This includes collecting data about visitors the Misty Cave Preserve and advising all visitors of the importance of having clean clothing and equipment in compliance with US Fish & Wildlife Service standards.

Thank you for your understanding and compliance with these requests and procedures. We are doing our best to balance the management and protection aspects of cave

Please complete the following (use additional pages if needed):

Complete Personnel List and Recent Caving Experience by State

	Name	Residence (City, State)	States caved in over the last 12 months. (If TN, what area or caves)		Name	Residence (City, State)	States caved in over the last 12 months. (If TN, what area or caves)

Compliance Statement

I have read, and have advised all participants of, the Misty Cave Preserve Visitation Policy as outlined in the Misty Cave Preserve Management Plan. All participants hereby agree to comply with the requirements of the policy, and understand that future permits to any of us may depend on full compliance by all of us.
